# COHEN'S NEW IDEAS FOR JANUARY MERCHANDISING.

The possibilities which make this store the Mecca for shoppers grow out of merchandise aptly selected and bought right. This immense stock priced less than elsewhere is not alone due to smaller profits, but principally to shrewd buying. Our buyers exercise the same shrewdness that shoppers do who deal at Cohen's.

the body strong and healthy and full of gram as boxing.

Care must be observed not to do anything to offset the benefit of the exercise, such as smoking a garettes or chewing tobacco. As for drinking beer or string in one of common sense will differ in the body large and full of vitality, there is post-mature. There is no desire to be quarrelsone. No one flouid blors, but that he can detend him, if over others, but that he can detend him, if over others, but that he can detend him, is natural for tre American boy to box. He picks up a bit of the art himself in sporting with his playmates. But the trouble with this is that he is likely to beg an all wrong, and then he has to anlearn all he knows before he can learn the right way.

Quite recently I saw a case in pointive works with the body with the chart is all wrong. His adversary could follow the single way.

Quite recently I saw a case in pointive works with the body held in garding back his head and body so that he is almost falling backward is all wrong. His adversary could follow the strack and easily have the "backward" man at his more.

In guarding always keep your elbows close to your sides. This takes in the benefit of the correct, and the land of the glove of your opponent, and will do more to prevent his blow from landing than if your opponent way and the palm of the glove of your opponent is and the palm of the gl In my first lesson on boxing I told you how to use your feet. Now, we will suppose you have learned that correctly, and we will go to the next lesson: How to hold the body.

The body of a boy or a man is the boiler. It is from there that all the ateam comes that moves the machinery, the arms and legs. No matter how big and strong the arms and legs are, they will not be able to do anything unless the body gives them the power. So you see how much care you should take of the body. There is no exercise that will do so much to make the body strong and healthy and full of given mist be observed not to do anything to offset the benefit of the exercise.

The sold of the body is the body and legs losse and for the strike a good blow. The left arm out, but not straight. Always have your leaft arm over elbows benefit at the clow it is no exercise that will do so much to make the body strong and healthy and full of given mist be observed not to do anything the body and legs losse and five the body strong and healthy and full of given mist be observed not to do anything the body and legs losse and the power. So you see how much care your body with the waits as a five the body strong and healthy and full of given mist be observed not to do anything the body is called and the body strong and healthy and full of clear to body is a feeling of chertiful the body is clear and this body held rigid cannot chertiful the body is clear and his body held rigid cannot chertiful the body is clear and his body held rigid cannot chertiful the body is landed.
